

Symposium

Emerging Technologies in Drug Discovery and Development

We cordially invite you and your colleagues to the Symposium 'Emerging Technologies in Drug Discovery and Development', on **Thursday August 23rd**.

We have a panel of interesting speakers lined up for you. The speakers are Marco de Boer from NTrans Technologies, Tomas Bos from Glycostem and Frank Beurskens from Genmab. Each speaker will address the scientific implications of their company's technology in drug discovery and development programs. Furthermore, two students will present their business development internships. You will find the program of the symposium below.

Program

- 14:30 Walk-in
- 15:00 NTrans Technologies - Marco de Boer (CEO)
'iTOP: CRISPR delivery with a pinch of salt'
- 15:40 IMIHGOM B.V. - Olivier Smulders (Intern)
'Technology landscape in oncology drug discovery and drug development'
- 16:00 Mimetas - Karin de Nijs (Intern)
'A business internship: Finding the perfect match'
- 16:20 Break
- 16:40 Glycostem - Tomas Bos (Senior Research Manager)
'CAR-NK: the big promise for a universal cancer cure'
- 17:20 Genmab - Frank Beurskens (Senior Scientist)
'Translating antibody structure-function relations into therapy: the power of imagination'
- 18:00 Drinks
